4. Once you have completed this step, you will have access to the participant’s main control panel and you will also receive an email from [campus@automail.wormholeit.com](mailto:campus@automail.wormholeit.com), which has all the necessary information

for the participant to begin the course. In case you do not receive this email in your inbox, you are kindly requested to check out your unwanted email box. In this email you will find the access code to be used from now on every time you want to access the platform.

7. The educational proposal is organized as if it was a course of studies and has the following structure: “Details of the course of studies”, which has all the basic information and “Courses”, with the contents grouped according to topics and an assessment of the submitted topics. The proposals are independent, but it is advisable to do all the modules grouped in courses in the so-called course

of studies, so as to be able to get the final certificate. Every participant can do the course at their own pace, since none of the courses have a closing date.

8. From now on, every time you want to access the platform, you will be able to do so by entering your user and password in the “Log in” function”.
